### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dr. Izumi Yokoyama on 27 November 2007.

The application has been amended as follows:

In claim 17, at line 3, "a complement" has been changed to -- "the full length complement"--.

In claim 125, at line 2, "immunogenic" has been deleted.

In claim 146, at line 3, "a complement" has been changed to -- "the full length complement"--.

Claims 17, 27, 30, 101, 125, 146, 174-177 are allowed.

### **EXAMINER'S COMMENT**

The specification has been amended to provide literal support for the "full length complement" of the claimed sequences. This is not considered new matter because one skilled in the art would immediately recognize that "a complement" of a nucleic acid sequence includes the full-length complement, whose sequence is dictated by the recited SEQ ID NO.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
